

125 Questions

Que. 1 The relation between the fetal presenting part and maternal pelvis is known as?

1. Attitude
2. Lie
3. Position
4. Station

Solution Correct Option - 3

Que. 2 Which vaccine can be frozen?

1. BCG
2. polio
3. MMR
4. DPT/DT

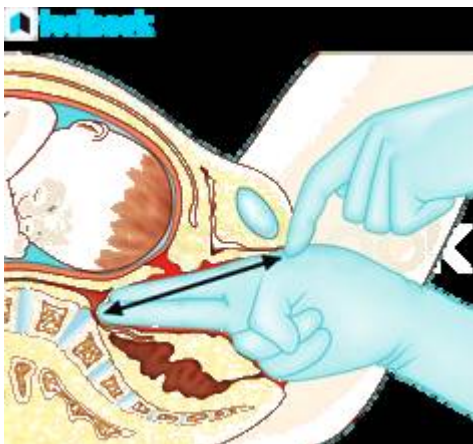

Solution Correct Option - 3

Que. 3 Which vaccine given to forms blister and heals by itself and forms parmanant scar mark after administration is?

1. BCG
2. MMR
3. DPT/DT
4. Polio

Solution Correct Option - 1

Que. 4 Identify the conjugate measured in the picture?

1. Obstetrics conjugate
2. Diagonal conjugate
3. True conjugate
4. None of the above

Solution Correct Option - 1

Que. 5 A post LSCS woman passes 400 ml urine in past 24 hours?

1. Oligouria
2. Polyuria
3. Anuria
4. Hematuria

Solution Correct Option - 1

Que. 6 Red color urine is caused by which anti tubercular drug?

1. Isoniazid
2. Rifampicin
3. Streptomycin
4. Etambutol

Solution Correct Option - 2

Que. 7 Visualization of bone in which stage of burn?

1. 1st stage
2. 2nd stage
3. 3rd stage
4. 4th stage

Solution Correct Option - 4

Que. 8 Bullet train in India was run with the help of which country?

1. Japan
2. China
3. Russia
4. USA

Solution Correct Option - 1

Que. 9 Identify the procedure being performed in the image?

1. Blood sampling for ABG analysis
2. IV Drug Administration
3. Venipuncture
4. All of the above

Solution Correct Option - 1

Que. 10 The given retractor is used in which of the following surgeries?

1. Thyroidectomy
2. Ophthalmic surgeries
3. LSCS
4. Orthopedic surgeries

Solution Correct Option - 3

Que. 11 Identify the colour of IV cannula used in poediatrics unit?

1. Yellow
2. Orange
3. Grey
4. Green

Solution Correct Option - 1

Que. 12 Identify the size of IV Cannula in Image?

1. 14
2. 16 G
3. 18 G
4. 20 G

Solution Correct Option - 1

Que. 13 What will you do if you have a needle stick injury of a HIV patient?

1. Give incision to the injury
2. Suck out the blood
3. Squeeze out the blood
4. Wash with soap and water

Solution Correct Option - 4

Que. 14 A 28 year old primigravida comes to the ANC OPD, how many additional Kcal will you recommend?

1. 200 kcal
2. 300 kcal
3. 500 kcal
4. 1000 kcal

Solution Correct Option - 2

Que. 15 Which is the most appropriate nursing action for a 32 years female patient, diagnosed with bipolar affective disorder?

1. Use physical restraints
2. Establish clear boundaries
3. Use chemical restraints
4. Give ECT

Solution Correct Option - 2

Que. 16 The pelvis shape has the poorest prognosis from vaginal delivery?

1. Android
2. Gynecoid
3. Platypelloid
4. Anthropoid

Solution Correct Option - 1

Que. 17 This drug use to?

1. Decrease pain
2. Decrease swelling
3. Decrease secretion
4. Increase secretion

Solution Correct Option - 1

Que. 18 Term 'Gossypiboma' means?

1. Tumor in head
2. Tumor in abdomen
3. During surgery Foreign material left inside the body
4. During surgery accidentally body organ damage inside the body

Solution Correct Option - 3

Que. 19 Pregnant lady with card presentation in what is nursing priority?

1. Give Trendelenburg position
2. Give reverse Trendelenburg position
3. Inform to HCP
4. Gently push the cord

Solution Correct Option - 1

Que. 20 What is the cerebral perfusion pressure (CPP) if BP is 90/60 and ICP is 18?

1. 48 mmHg
2. 65 mmHg
3. 52 mmHg
4. 30 mmHg

Solution Correct Option - 3

Que. 21 Most southern state of India?

1. Karnataka
2. Kerla
3. Tamil Nadu
4. Andhra Pradesh

Solution Correct Option - 3

Que. 22 3rd planet from the sun?

1. Venus
2. Mars
3. Earth
4. Jupiter

Solution Correct Option - 3

Que. 23 Rafale jet come from which country?

1. France
2. Japan
3. China
4. Russia

Solution Correct Option - 1

Que. 24 After remove of NG from patient it discarded in which colour of bag?

1. Yellow
2. Red
3. Black
4. Blue

Solution Correct Option - 2

Que. 25 Electronic City of India?

1. Delhi
2. Chandigarh
3. Bangalore
4. Indore

Solution Correct Option - 3

Que. 26 WHO headquarters is situated at?

1. Geneva
2. Rome
3. Washington
4. Paris

Solution Correct Option - 1

Que. 27 Allergy skin test done with intradermal route only because?

1. Slow absorption of drug
2. Fast absorption of drug
3. ID route less painful

4. ID route less injury to skin

Solution Correct Option - 2

Que. 28 The online seller selling the bag in online at rupee 2000, with already 20% of discount and after placing the order he gives additional 10% discount. So find the actual selling cost of the bag?

1. 1200
2. 1440
3. 1600
4. 1320

Solution Correct Option - 2

Que. 29 After complain of open abdominal surgery. The OT nurse needs to do which of the following activity first before suturing. (give priority answer)

1. Disinfection of OT
2. Change the gown
3. Checking the sponge count & instruments counts before suturing.
4. Clean the instruments

Solution Correct Option - 3

Que. 30 Identify the image given below?

1. Guedel airway
2. Nasopharyngeal airway
3. Trecheostomy tube
4. ET tube

Solution Correct Option - 1

Que. 31 On the evening time in sunlight face to face the A and D where standing. The A person shadow in D right side. Then in which direction does the D standing?

1. West side
2. North side
3. South side
4. East side

Solution Correct Option - 2

Que. 32 Who composed the national anthem?

1. Mahatma gandhi
2. Rabindranath tagore
3. Bankim Chandra Chatterjee

4. Madan Mohan Malviya

Solution Correct Option - 2

Que. 33 What is the unit used for measurement camera image resolution?

1. Megabyte
2. Terabyte
3. Terapixels
4. Megapixels

Solution Correct Option - 4

Que. 34 President of India?

1. Ram Nath Kovind
2. Narendra Modi
3. Rajnath singh
4. Amit shah

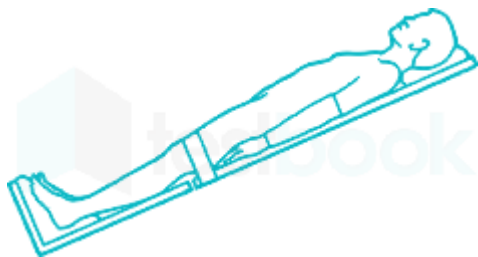

Solution Correct Option - 1

Que. 35 Oral contraceptive pills (OCP) will be given after how many hours of unprotected sexual intercourse?

1. Within 72 hours
2. Within 12 hours
3. After 96 hours
4. Within 36 hours

Solution Correct Option - 1

Que. 36 Identify the position in a given image?

1. Trendelenburg position
2. Lithotomy position
3. Reverse Trendelenburg position
4. Dorsal recumbent position

Solution Correct Option - 3

Que. 37 Triple test performed at 15-18 weeks of pregnancy. What is the positive test result indicate that the body having down syndrome?

1. high and UE3 tend to be high that of MSAFP is low
2. MSAFP and UE3 tend to be high that of hCG is low
3. MSAFP and UE3 tend to be low that of hCG is high

4. high and UE3 tend to be high that of MSAFP is high

Solution Correct Option - 3

Que. 38 Identify the next number in the sequence.

1, 2, 4, 7, 11, _____

1. 14
2. 16
3. 12
4. 10

Solution Correct Option - 2

Que. 39 Identify the name of instruments?

1. Cuscos speculum
2. Sims speculum
3. doyon retractor
4. Deaver retractor

Solution Correct Option - 2

Que. 40 This KUB X-ray showing

1. Bladder carcinom
2. Renal calculi
3. Bladder injury
4. Dialated ureter

Solution Correct Option - 2

Que. 41 The mesh use in which type of surgery?

1. Ceserian section
2. Cardiac surgery
3. Hernia repair surgery
4. Thorasic surgery

Solution Correct Option - 3

Que. 42 What is the immediate first aid management of chemical accident foreign body on the cornea area?

1. Remove foreign body
2. Cover the foreign body
3. Clean the eyes with water/normal saline
4. Give pain management

Solution Correct Option - 3

Que. 43 Which drug decrease the threshold of seizures?

1. Lithium
2. Anticonvulsants
3. Benzodiazepine
4. barbiturate

Solution Correct Option - 2

Que. 44 A type of fever in which after every 24 hours the body temperature comes to normal level is known as?

1. Intermittent fever
2. Continued fever
3. Remittent fever
4. Relapsing fever

Solution Correct Option - 1

Que. 45 32 week pregnant woman hospitalized with vaginal discharge, and its fibronectin test positive, what kind of labour does it indicate?

1. Post term labour
2. Prolong labour
3. Preterm labour
4. Precipited labour

Solution Correct Option - 3

Que. 46 Your finding emulcificaiton of fat in TPN bag. As a nurse what is your immediate action?

1. Change the new bag
2. Rubing the bag
3. Administer fast
4. Nothing to do

Solution Correct Option - 1

Que. 47 Characteristic of breast cancer?

1. Non moveable fixed irregular mass
2. Non moveable fixed regular mass
3. Moveable fixed irregular mass
4. Moveable fixed regular mass

Solution Correct Option - 1

Que. 48 Which of the following drug administration during post operative period will cause nausea and vomiting?

1. Diclofenac
2. Paracetamol
3. Tramadol
4. Ondansetron

Solution Correct Option - 4

Que. 49 When is the reason to perform naloxone challenge test on the client with opioid abuse?

1. To check reaction of drug
2. To check patient interest
3. To treat opioid abuse
4. To check the level of physical dependence

Solution Correct Option - 4

Que. 50 Which of the following behavioural therapy is effective in treating patient with OCD?

1. Exposure and response prevention
2. Aversion therapy
3. Psychodynamic
4. Cognitive behavioural

Solution Correct Option - 1

Que. 51 The umbilical cord contains at term by?

1. Two arteries two vein
2. Two arteries one vein
3. One artery two vein
4. One artery one vein

Solution Correct Option - 2

Que. 52 Murphy sign seen in which disorder?

1. Appendicitis
2. Cystitis
3. Cholecystitis

4. Renal stone

Solution Correct Option - 3

Que. 53 The client says that his thought is being telecasted in media without his knowledge?

1. Circumstantiality
2. Derailment
3. Thought broadcasting
4. Clang association

Solution Correct Option - 3

Que. 54 Safest exercise advised to pregnant mother?

1. Cycling
2. Swimming
3. Football
4. Racing

Solution Correct Option - 2

Que. 55 Name of the scale for measuring symptoms severity of patients with schizophrenia?

1. NRS
2. PANSS
3. VAS
4. FLACC

Solution Correct Option - 2

Que. 56 Vacuum suction pressure in adult is?

1. 120 mmHg
2. 170 mmHg
3. 80 mmHg
4. 60 mmHg

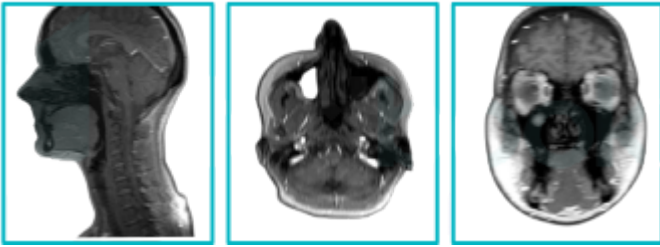

Solution Correct Option - 1

Que. 57 After thoracentesis patient to give position?

1. Side lying position with unaffected side down
2. Side lying position with affected side down
3. Prone position
4. Supine position

Solution Correct Option - 1

Que. 58 Identify the image of MRI scan for which body organ?

1. Abdomen
2. face
3. head
4. Pelvis

Solution Correct Option - 2

Que. 59 Oxytocin is mainly involved in which of the following functions ?

1. Motor skills
2. Childbirth and lactation
3. Growth and mental ability
4. Regulation of blood pressure

Solution Correct Option - 2

Que. 60 which of the following is NOT related to MMR vaccine?

1. Rubella
2. Measles
3. Rickets
4. Mumps

Solution Correct Option - 3

Que. 61 who among the following devised the autoclave used for sterilization?

1. Charles Chamberland
2. Robert Koch
3. Edward Jenner
4. Anton van Leeuwenhoek

Solution Correct Option - 1

Que. 62 widal, a serological test, is used to detect the presence of which of the following pathogenic microorganisms?

1. E coli
2. Mycobacterium tuberculosis
3. Haemophilus influenzae
4. Salmonella typhi

Solution Correct Option - 4

Que. 63 The causative agent of Lyme disease is:

1. Rickettsia prowazekii
2. Alphavirus
3. Borrelia burgdorferi
4. Trypanosoma brucei gambiense

Solution Correct Option - 3

Que. 64 India is having rupees at the same way united states currency?

1. Euro
2. Dollar
3. Taka
4. Pound

Solution Correct Option - 2

Que. 65 Which of the following microorganisms causes gonorrhea?

1. Stylus gonorrhoeae
2. Streptococcus pneumoniae
3. Stereotyoist gonorrhoeae
4. Neisseria gonorrhoeae

Solution Correct Option - 4

Que. 66 Type I hypersensitivity is mediated by

1. IgG
2. IgE
3. IgM
4. IgA

Solution Correct Option - 2

Que. 67 Which of the following is true about IgM?

1. It is not produced by vertebrates
2. It forms the initial immune response
3. It is not an isotypes of antibody
4. It is the smallest antibody

Solution Correct Option - 2

Que. 68 Who is considered as the father of sociology?

1. Auguste Comte
2. Maclver
3. Emile Durkheim
4. Kingsley Davis

Solution Correct Option - 1

Que. 69 Following death, the subjective response surviving experienced by the loved ones is called:

1. Bereavement
2. Mourning
3. Compliance
4. Grief

Solution Correct Option - 4

Que. 70 Chemical formula for water?

1. H_2O
2. N_2O
3. CO_2
4. HO_2

Solution Correct Option - 1

Que. 71 Surgeon after surgery discard the gloves in red colour bin. Choice the option according to question?

1. Surgeon should discard in yellow bin
2. Surgeon discarded in right colour bin
3. Surgeon should discard in blue bin
4. Surgeon should discard in black bin

Solution Correct Option - 2

Que. 72 Other name of cidex?

1. Amonium chloride
2. Formaldehyde
3. Isopropyl chloride
4. Glutaraldehyde

Solution Correct Option - 4

Que. 73 Gloves paper box waste discarded in which colour of bag?

1. Yellow
2. Red
3. Black
4. Blue

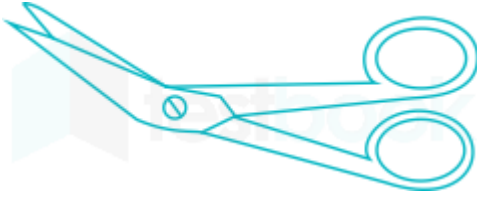

Solution Correct Option - 3

Que. 74 Obstructed labour also known as?

1. Atocia
2. Dystocia
3. Precipited labour
4. Prolonged labour

Solution Correct Option - 2

Que. 75 Identify the instrument?

1. Episiotomy scissors
2. Artery forceps
3. allis forceps
4. Cheatle forceps

Solution Correct Option - 1

Que. 76 Image in identify use of white colour pipe line?

1. Suction
2. Oxygen
3. Nitrous oxide
4. Nitrogen

Solution Correct Option - 2

Que. 77 Self care deficit theory given by?

1. Hildegard Peplau
2. Virginia Henderson
3. Dorothea Orem
4. Dorothy Johnson

Solution Correct Option - 3

Que. 78 Nasogastric suction cause which type of acid base imbalance?

1. Metabolic acidosis
2. Metabolic alkalosis
3. Respiratory acidosis
4. Respiratory alkalosis

Solution Correct Option - 2

Que. 79 Vascular repair done by which type of sutures?

1. Silk suture
2. Polyester suture
3. Monofilament sutures
4. Ethibond sutures

Solution Correct Option - 3

Que. 80 Identify image to give answer?

1. Feeding bag
2. TPN bag
3. IV bag
4. Urine bag

Solution Correct Option - 1

Que. 81 Choose which of these is the net of a cube?

1. 
2. 
3. 
4. 

Solution Correct Option - 3

Que. 82 Patient receiving mannitol drug, what is the role of nurse in patient with mannitol?

1. Monitor therapeutic value
2. Monitor urine output
3. Patient safety

4. Diet management

Solution Correct Option - 2

Que. 83 ASHA in "A" stands for?

1. Accredited
2. Actor
3. Accesary
4. Automised

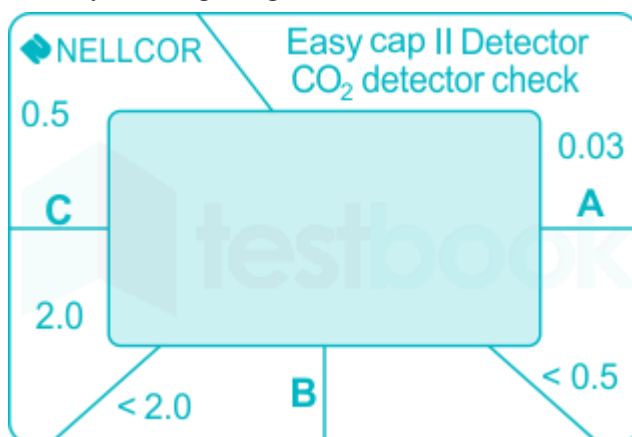

Solution Correct Option - 1

Que. 84 The patient is getting potassium correction in 5% dextrose. What ECG changes will the nurse see to stop the infusion?

1. Prominant U wave
2. Tall Peaked T wave
3. Depressed ST segments
4. Shallow T wave

Solution Correct Option - 2

Que. 85 Identify an image to give the answer?

1. Suction presser detector
2. HME filter
3. O₂ detector
4. ETCO₂ detector

Solution Correct Option - 4

Que. 86 If your sister is half your age, in 10 years she will be $\frac{3}{4}$ th of your age, what is her present age?

1. 5 year
2. 10 year
3. 15 year
4. 20 year

Solution Correct Option - 1

Que. 87 The activity not recorded by pulse oximeter?

1. Pulse
2. Oxygen
3. ECG changes
4. SpO2%

Solution Correct Option - 3

Que. 88 Regarding COVID 19 which one is not correct?

1. COVID-19 severity leads to ARDS
2. Belong to HIV/Hep category
3. Transmitted by aerosol and fomites
4. Sign and symptom of fever, cough

Solution Correct Option - 2

Que. 89 Folic acid richest sources?

1. Milk
2. Meat
3. Green leafy vegetables
4. Banana

Solution Correct Option - 3

Que. 90 A patient is very restless while receiving IV fluids to treat dehydration. The IV catheter has slipped out of the vein and fluid is delivered to the surrounding tissues under the skin, causing swelling. Which term best describes this occurrence?

1. Infection
2. Fluid overload
3. Infiltration
4. Extravasation

Solution Correct Option - 3

Que. 91 Surgical safety check list in following action is not included?

1. Check correct patient
2. Correct surgical site
3. Check the blood sugar for all patient
4. Intake output for 24 hour

Solution Correct Option - 3

Que. 92 What is possible complication if patient complain pain, redness, tenderness and warmth on IV site?

1. Infiltration
2. Phlebitis
3. Extravasation
4. Hematoma

Solution Correct Option - 2

Que. 93 Lignocaine does not cause following symptoms?

1. Hypotension
2. Restlessness
3. Constipation
4. Nausea and vomiting

Solution Correct Option - 2

Que. 94 The length of ryles tube (nasogastric tube)?

1. 70 cm
2. 90 cm
3. 105 cm
4. 140 cm

Solution Correct Option - 3

Que. 95 Image to identify which type of amputation?

1. Transfemoral amputation
2. Transtibial amputation
3. Knee disarticulation
4. Ankle disarticulation

Solution Correct Option - 2

Que. 96 The purpose of nominal scale?

1. Ratio
2. Range
3. Mean
4. Median

Solution Correct Option - 2

Que. 97 Glutaraldehyde is used widely as a cold sterilant to disinfect a variety of heat sensitive instruments give the example?

1. Forceps

2. Scissors
3. Laparoscopic instruments
4. Patient bed

Solution Correct Option - 3

Que. 98 The psychiatric client getting the antipsychotic drugs, and the client getting the symptoms of agitation, feeling of restlessness, dysphoria, and difficulty in sleeping, the group of this adverse effect is called as?

1. Akathesia
2. Tardive dyskinesia
3. Shakiness
4. Dyskinesia

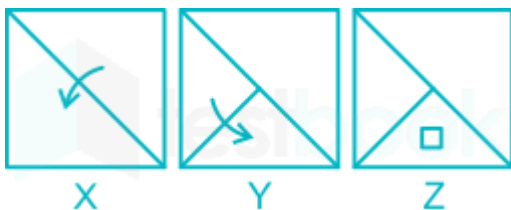

Solution Correct Option - 1

Que. 99 Function of erythropoietin?

1. WBC synthesis
2. RBC synthesis
3. Platelet synthesis
4. Plasma synthesis

Solution Correct Option - 2

Que. 100 Choice the correct option?

- 1.
- 2.
- 3.
- 4.

Solution Correct Option - 3

Que. 101 Identify this image ?

1. Trecheostomy connector
2. HME filter
3. ET tube connector
4. Hemo filter

Solution Correct Option - 2

Que. 102 BMI measure by ?

1. Weight in kg/height in meter²
2. Weight in kg/height in cm²
3. Weight in kg/height in meter³
4. Weight in kg/height in cm

Solution Correct Option - 1

Que. 103 Acute leukemia the blood cells ?

1. Immature leukocytes
2. Immature reticulocyte
3. Immature platelets
4. Mature granulocyte

Solution Correct Option - 1

Que. 104 Neck muscle contract, causing the head to twist to one side, choice the following option ?

1. Torticollis
2. Occulogyric crisis
3. Tardive dyskinesia
4. Pseudo parkinsonism

Solution Correct Option - 1

Que. 105 A pregnant client asks the nurse in the clinic when she will be able to begin feel the fetus move. The nurse responds by telling the mother that fetal movements will be noted between which weeks of gestation ?

1. 6 & 8
2. 8 & 10
3. 10 & 12
4. 14 & 18

Solution Correct Option - 4

Que. 106 How many students in the class do not have a mobile phone?

1) 30 students have a mobile phone in the classroom

2) There are a total of 50 students in the classroom

1. Data in both the statements I and II is not sufficient to answer the question
2. Data in statement I alone is sufficient to answer the question.
3. Data in statement II alone is sufficient to answer the question
4. The data given in both statements I and II together are necessary.

Solution Correct Option - 4

Que. 107 Why in some Europe countries catgut suture material not used ?

1. Transmit bovine disease
2. Transmit HIV
3. Transmit malaria
4. Transmit HCV

Solution Correct Option - 1

Que. 108 The infant undergone for VP (ventriculo peritoneal) shunt surgical procedure. On the assessment how will you assess the sign of increased ICP ?

1. Respiration
2. Blood pressure
3. Anterior fontanel assessment
4. Urine output

Solution Correct Option - 3

Que. 109 After delivery uterus palpate at ?

1. Between symphysis pubis and umbilicus
2. Between symphysis pubis and xipod process
3. Between umbilicus and xiphoid process
4. At umbilicus

Solution Correct Option - 1

Que. 110 Amphetamine used in ADHD for long term than cause ?

1. confusion
2. Increased appetite
3. Mania
4. Hypothermia

Solution Correct Option - 1

Que. 111 Painful Bleeding at 34 week of gestation

1. Placenta previa
2. Placenta percreta
3. Abruptio placentae
4. Placenta accreta

Solution Correct Option - 3

Que. 112 In placenta previa and bleeding of gestation investigation of choice ?

1. Perform USG
2. CT scan
3. MRI
4. Pelvic X-ray

Solution Correct Option - 1

Que. 113 A 39 years old woman para 6 has presented with complaint of post coital bleeding for the three months. Your first investigation should be ?

1. Dilatation and curettage
2. Pap smear
3. Colposcopy
4. Laparoscopy

Solution Correct Option - 2

Que. 114 Not recognize word affect wernickes area then damage which lobe of brain ?

1. Parital lobe
2. Temporal lobe
3. Frontal lobe
4. Occipital lobe

Solution Correct Option - 2

Que. 115 Long term use of frusemide (Lasix) cause following side effect ?

1. Hyperkalemia
2. Hyponatremia
3. Urine specific gravity decreased
4. Metabolic acidosis

Solution Correct Option - 2

Que. 116 Your are preparing to give potassium chloride 30 meq in 1000 ml of normal saline over 10 hours. The medication label reads 40 meq per 20 ml. how many milliliters of potassium chloride do you need to administer the correct dose ?

1. 10 ml
2. 15 ml
3. 20 ml
4. 50 ml

Solution Correct Option - 2

Que. 117 Early indicator of hypoxia in unconscious client ?

1. Restlessness
2. Cynosis
3. Tachycardia
4. Hypertension

Solution Correct Option - 1

Que. 118 In child not autoimmune disorder ?

1. Diabetes militus
2. Lupus erythmatus
3. Rheumatic arthritis
4. Diabetic incipidus

Solution Correct Option - 4

Que. 119 Following is Gastric compression tube ?

1. Jejunostomy tube
2. Sengstaken blakemore tube
3. Levin tube
4. Salem sump tube

Solution Correct Option - 2

Que. 120 Creatinine kinase raise in MI within

1. 12-14 hrs
2. 4-6 hrs
3. 6-21 hrs
4. 10-14 hrs

Solution Correct Option - 2

Que. 121 In COPD patient given O₂ by venturi mask then nursing priority action ?

1. Assess the dryness of nose
2. Provide hot liquid
3. Provide supine position

4. Cheque alertness

Solution Correct Option - 1

Que. 122 Chemical formula of water ?

1. H_2O
2. HO_2
3. $COOH$
4. CO_2

Solution Correct Option - 1

Que. 123 After delivery of head of baby next action ?

1. Cut the cord
2. Delivery of anterior shoulder
3. Check FHR
4. Delivery of body

Solution Correct Option - 2

Que. 124 Pressure ulcer clean with ?

1. H_2O_2
2. Dettol solution
3. Glutaldehyde solution
4. Betadine

Solution Correct Option - 1

Que. 125 What is the permanent method of sterilization in male ?

1. Vasectomy
2. Tubectomy
3. Barrier method
4. Hystrectomy

Solution Correct Option - 1
