Ability and Reasoning Ability

are sitting in two parallel rows containing 4 people each in such a way that
al distance between adjacent persons.
J, K and L are seated and all of them are facing south.
Q, R and S are seated and all of them are facing north.
erson faces another person from the other row.
to the right of R. Only two people sit between P and R. The one facing Q
to the right of the one facing R. K sits to the immediate right of L. J sits to
te right of K and does not face Q.
following represents both people facing each other?

Question ID : 630680757552
Option 1 ID : 6306802969196
Option 2 ID : 6306802969194
Option 3 ID : 6306802969193
Option 4 ID : 6306802969195

भाषा में,
है 'A, B की माता है'
है 'A, B का भाई है'
है 'A, B की पत्नी है'
है 'A, B का पिता है'
पर, यदि ' $P \times M \div L - K \times N \div J \times Q$ ' है, तो K, Q से किस प्रकार संबंधित है?
पुत्र (नाती)
पिता (ससुर)
की माता (सास)
ज भाई (मामा)

Following letter-number clusters will replace the question mark (?) in the series to make it logically complete?

22, CFJ 33, DHM 44, ?

Option 3 ID : 6306803603732

Which of the following statements is NOT correct regarding the food exchange

Food exchange lists are not useful in planning diets for metabolic diseases and in prevention of obesity.

Food exchange system allows one to choose a variety of foods from within a category to provide adequate nutrients.

Food exchange list has brought about simplicity, flexibility and standardisation into the calculation of values of foods used in quantitative diets.

Food exchange system allows variety to be introduced into the diets without affecting energy or macronutrient contents.
