

## SSC CGL T-I Similar Paper (Held on 13 Sep 2025 S3) - English

**Q1.** A says: "She is the daughter of my father's only son." How is the girl related to A?

- (a) Sister
- (b) Cousin
- (c) Mother
- (d) Daughter

**Ans.(d)**

**Q2.** If  $4 \# 3 = 19$  and  $6 \# 5 = 41$ , then  $8 \# 7 = ?$

- (a) 63
- (b) 65
- (c) 71
- (d) 73

**Ans.(c)**

**Q3.** If LIGHT is

- (a) GEZWX
- (b) GFZWX
- (c) GFZXX
- (d) GFYWX

**Ans.(b)**

**Q4.** If  $7x + 5 =$

- (a) 7
- (b) 8
- (c) 9
- (d) 10

**Ans.(b)**

**Q5.** Statement

"The governm

Assumptions:

I. Plastic cause

II. Regulations

- (a) Only I
- (b) Only II
- (c) Both I and II
- (d) Neither I nor II

**Ans.(c)**

**Q6.** Choose the option similar to the following numbers:

21, 34, 55, ?

- (a) 89
- (b) 90
- (c) 87
- (d) 91

**Ans.(a)**

**Q7.** How many letters will remain unchanged if the word MOBILE is arranged alphabetically?

- (a) 2
- (b) 1
- (c) 0
- (d) 3

**Ans.(c)**

**Q8.** If + is  $\times$ ,  $\times$  is  $-$ ,  $-$  is  $\div$  and  $\div$  is  $+$ , then  $6 + 4 \times 24 - 8 \div 4 = ?$

- (a) 30
- (b) 25
- (c) 20
- (d) 35

**Ans.(b)**

**Q9.** In a row of 20 children, A becomes 14th from left. Total children in the row is?

- (a) 23
- (b) 24
- (c) 25
- (d) 26

**Ans.(c)**

**Q10.** Select the correct option.

- (a) RED
- (b) QDC
- (c) TGF
- (d) KLM

**Ans.(d)**

**Q11.** P is brother of Q. Q is the father of R. How is P related to R?

- (a) Uncle
- (b) Father
- (c) Brother
- (d) Cousin

**Ans.(a)**

**Q12.** Complete the series:

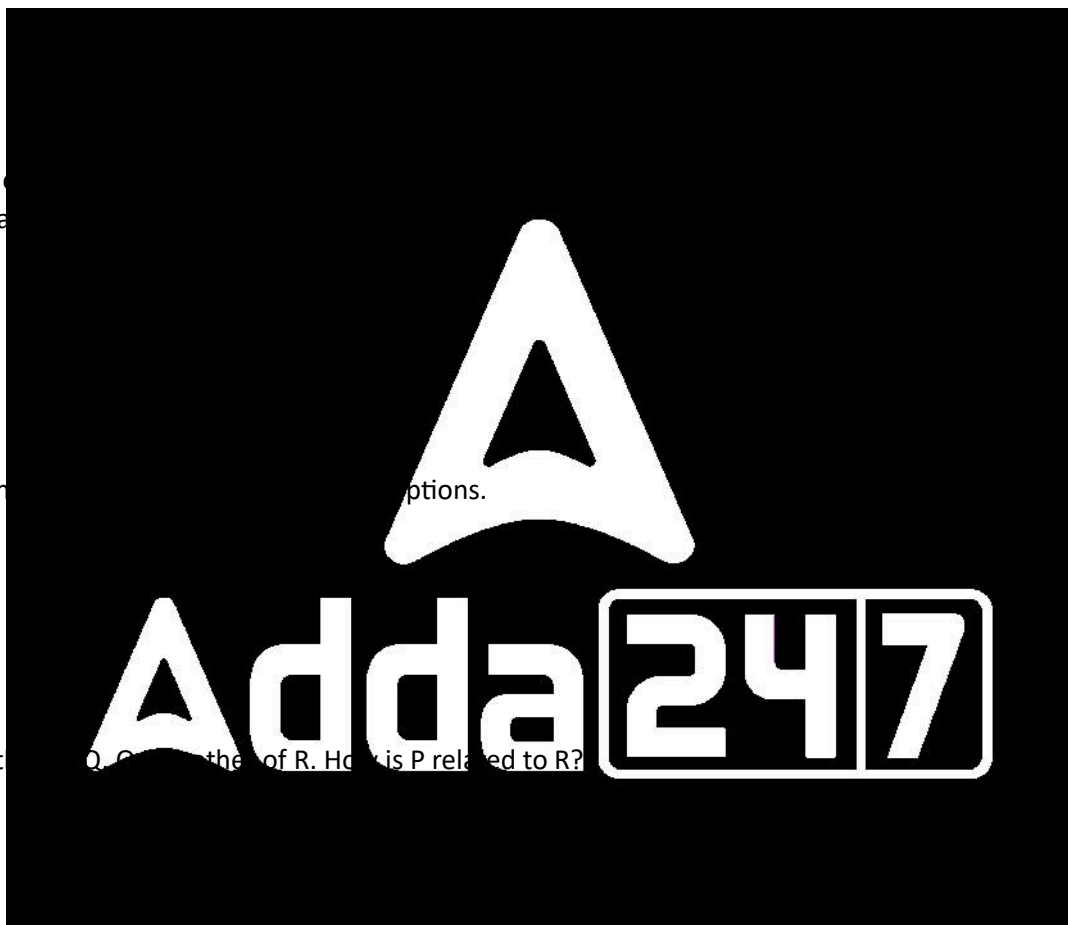

2, 5, 10, 17, ?

- (a) 24
- (b) 26
- (c) 25
- (d) 27

**Ans.(b)**

**Q13.** Find the odd one out.

- (a) 4 : 16

(b) 5 : 25

(c) 6 : 36

(d) 8 : 54

**Ans.(d)**

**Q14.** If PEARL is coded as RGCUN, how is STONE coded?

(a) UVQQG

(b) UVQPF

(c) UVRPF

(d) TUPOF

**Ans.(a)**

**Q15.** If '\$' me

(a) 24

(b) 32

(c) 36

(d) 28

**Ans.(d)**

**Q16.** Complet

3, 6, 13, 28, ?

(a) 55

(b) 57

(c) 59

(d) 61

**Ans.(c)**

**Q17.** If the su

(a) 420

(b) 500

(c) 480

(d) 540

**Ans.(c)**

**Q18.** Apply th

WRITE → UQQ

BREAK → ?

(a) ZQCYI

(b) ZQCZI

(c) YOCYI

(d) YPCYI

**Ans.(b)**

**Q19.** How many meaningful English words can be formed using letters of PLANT, each letter used once?

(a) 2

(b) 1

(c) 4

(d) 3

**Ans.(b)**

**Q20.** Select the option that will replace the question mark.

ABDF, CEGH, EHJJ, ?

- (a) GKML
- (b) FHJK
- (c) GKJL
- (d) HJKL

**Ans.(a)**

**Q21.** If CAT = DBU, then DOG = ?

- (a) EPJ
- (b) FPH
- (c) EPH
- (d) EOJ

**Ans.(c)**

**Q22.** If 6 @ 4

- (a) 60
- (b) 65
- (c) 55
- (d) 75

**Ans.(b)**

**Q23.** Choose the correct option.

Flat No. 45, Block A, Sector 13, Gurgaon, Haryana - 122001

- (a) Flat No. 45, Block A, Sector 13, Gurgaon, Haryana - 122001
- (b) Flat No. 45, Block A, Sector 13, Gurgaon, Haryana - 122001
- (c) Flat No. 54, Block A, Sector 13, Gurgaon, Haryana - 122001
- (d) Flat No. 45, Block A, Sector 13, Gurgaon, Haryana - 122001

**Ans.(d)**

**Q24.** How many

- (a) 5
- (b) 7
- (c) 10
- (d) 15

**Ans.(a)**

**Q25.** If  $14 + 6 = 84$  and  $10 + 8 = 80$ , then  $12 + 8 = ?$

- (a) 76
- (b) 82
- (c) 84
- (d) 96

**Ans.(d)**

**Q26.** Arrange the steps in the passage of an Ordinary Bill in Parliament: A. Introduction in either House B. Passage by both Houses D. Consideration in the second House C. President's assent

- (a) A-B-D-C
- (b) A-D-B-C
- (c) B-A-D-C
- (d) D-A-B-C

**Ans.(b)**

**Q27.** The 'Mission Karmayogi' programme is implemented by which department?

- (a) Department of Personnel and Training
- (b) Ministry of Defence
- (c) Ministry of Finance
- (d) NITI Aayog

**Ans.(a)**

**Q28.** Under the

- (a) Secondary
- (b) Primary evidence
- (c) Invalid evidence
- (d) Oral testimony

**Ans.(b)**

**Q29.** According to the theory of evolution, which means

- (a) Increasing
- (b) Expanding
- (c) Reducing
- (d) Limiting diversity

**Ans.(b)**

**Q30.** Assertion (A): The SS-200 missile is a medium range ballistic missile (SSM-200).  
Reason (R): SS-200 is designed to provide cost-effective and reliable launch capabilities.

- (a) Both A and R are true, and R is the correct explanation of A.
- (b) Both A and R are true, but R is not the correct explanation of A.
- (c) A is true, but R is false.
- (d) A is false, but R is true.

**Ans.(a)**

**Q31.** Which of the following is not a glacial landform?

- (a) Formation of moraines and drumlins
- (b) Development of sand dunes
- (c) Creation of coral reefs
- (d) Formation of deltas

**Ans.(a)**

**Q32.** In the Wangala festival, the term 'Rongchugala' symbolizes:

- (a) War
- (b) Harvest celebration
- (c) Mourning
- (d) Isolation

**Ans.(b)**

**Q33.** Consider the following statements about the book 'Playing It My Way':

- (a) It is an autobiography of a former Indian cricketer.
- (b) It was written by a sports journalist.
- (c) It focuses only on domestic cricket tournaments.
- (d) It was published by the ICC.

**Ans.(a)**

**Q34.** Consider the following statements:

- 1. The Finance Commission is a constitutional body.
- 2. Its recommendations are legally binding on the government.

- (a) Only 1
- (b) Only 2
- (c) Both 1 and 2
- (d) Neither 1 nor 2

**Ans.(a)**

**Q35.** Who among the following is a folk singer from Jharkhand?

- (a) Jitendra Mohapatra
- (b) Rameshwari Prasad
- (c) Bhuri Bai
- (d) Syed Haider Ali

**Ans.(a)**

**Q36.** The folk dance 'Bhangra' is associated with which region?

- (a) Rajasthan
- (b) Eastern India
- (c) Western Himalayas
- (d) Deccan Plateau

**Ans.(b)**

**Q37.** A raga that has five notes is classified under which jaati?

- (a) Sampooran
- (b) Shadav
- (c) Audav
- (d) Mishra

**Ans.(c)**

**Q38.** Which of the following pairs is correctly matched with Mauryan pillar locations?

- (a) Vaishali – Bihar
- (b) Dhauri – Rajasthan
- (c) Rampurva – Uttar Pradesh
- (d) Amaravati – Karnataka

**Ans.(a)**

**Q39.** Ox-bow lakes are most commonly formed in:

- (a) Glacial regions
- (b) Floodplains of meandering rivers

- (c) Coastal deserts
- (d) Mountain plateaus

**Ans.(b)**

**Q40.** Which river basin is associated with major iron ore deposits in India?

- (a) Mahanadi basin
- (b) Godavari basin
- (c) Narmada basin
- (d) Kaveri basin

**Ans.(a)**

**Q41.** Which of the following statements about the 2022 SAFF Championship final is correct?

- (a) India defeated
- (b) India defeated
- (c) India defeated
- (d) India defeated

**Ans.(c)**

**Q42.** Which of the following statements about the National Hydrogen Mission is correct?

- (a) It depends
- (b) It is one of
- (c) Production
- (d) It is contro

**Ans.(b)**

**Q43.** The main objective of the 'National Hydrogen Mission' is to

- (a) Promote n
- (b) Develop h
- (c) Expand coa
- (d) Increase p

**Ans.(b)**

**Q44.** Who scored

- (a) Balbir Singh
- (b) Dhyan Ch
- (c) Roop Singh
- (d) Leslie Claudius

**Ans.(a)**

**Q45.** Which of the following statements about football rules is correct?

- (a) A goalkeeper cannot handle the ball inside the penalty area.
- (b) Offside is judged only when the ball is passed forward.
- (c) A player is sent off for receiving two yellow cards.
- (d) A corner kick is taken from the centre circle.

**Ans.(c)**

**Q46.** When did India successfully conduct the first Gaganyaan TV-D1 test flight?

- (a) October 2022

- (b) October 2023  
(c) January 2024  
(d) December 2024

**Ans.(b)**

**Q47.** Which initiative was launched by India under G20 to promote startup ecosystems among member nations?

- (a) G20 Innovation Network  
(b) Startup Bridge Forum  
(c) Global MSME Platform  
(d) Digital Economy Alliance

**Ans.(b)**

**Q48.** Consider

1. They are issued by the Reserve Bank of India.  
2. They help in the growth of the economy.

- (a) Only 1 is correct  
(b) Only 2 is correct  
(c) Both 1 and 2 are correct  
(d) Neither 1 nor 2 is correct

**Ans.(c)**

**Q49.** A new Amendment through which

- (a) Lok Sabha  
(b) Rajya Sabha  
(c) Supreme Court  
(d) State Assemblies

**Ans.(b)**

**Q50.** In tribal areas of Odisha, the Chhara Parva festival primarily symbolises:

- (a) Beginning of agricultural season  
(b) Victory in battle  
(c) Funeral rites  
(d) Trade activities

**Ans.(a)**

**Q51.** A retailer bought 100 kg of apples at ₹100 per kg. He sold 40 kg at ₹120 per kg, 30 kg at ₹80 per kg, and the remaining 30 kg at ₹90 per kg. What is the overall loss percentage?

- (a) 19.6%  
(b) 28.7%  
(c) 21.2%  
(d) 26.4%

**Ans.(b)**

**Q52.** A vendor mixes two types of tea - one costing ₹150 per kg and another costing ₹200 per kg, in the ratio 2 : 3. If he sells the mixture at ₹180 per kg, find his gain or loss percent.

- (a) 4% Gain  
(b) 4% Loss  
(c) 6% Loss

(d) no loss, no gain

**Ans.(d)**

**Q53.** A merchant incurred a loss of ₹200 on an item. If the loss percentage was 8%, what was the cost price?

- (a) ₹2,250
- (b) ₹2,500
- (c) ₹2,750
- (d) ₹3,000

**Ans.(b)**

**Q54.** Two concentric circles have circumferences in ratio 4:7. If smaller circle has area  $80 \text{ m}^2$ , what is the approximate area of the larger circle?

- (a)  $245 \text{ m}^2$
- (b)  $280 \text{ m}^2$
- (c)  $308 \text{ m}^2$
- (d)  $336 \text{ m}^2$

**Ans.(a)**

**Q55.** The average salary of 10 employees is ₹40,000. The average salary of 9 employees is ₹37,500. What is the salary of the 10th employee?

- (a) ₹37,500
- (b) ₹40,000
- (c) ₹42,500
- (d) ₹45,000

**Ans.(b)**

**Q56.** A sum of ₹1,75,616 is invested at 10% per annum. In how many years will it grow to ₹2,52,864?

- (a) 2
- (b) 3
- (c) 4
- (d) 5

**Ans.(b)**

**Q57.** A student scored 92 marks in a test. If he had scored 94 marks, he would have been awarded a prize of ₹1,000. What is his highest score?

- (a) 92
- (b) 94
- (c) 96
- (d) 98

**Ans.(b)**

**Q58.** P and Q start a business. P invests 3 times the capital of Q. After 7 months, P withdraws one-third of his capital, and Q doubles his capital. If the total duration of the business is 12 months and the total profit is ₹60,000, find Q's share.

- (a) ₹12,000
- (b) ₹21,250
- (c) ₹18,000

(d) ₹20,250

**Ans.(b)**

**Q59.** M and N share a rented property. M uses 16 machines for 6 months, while N uses 24 equipment for 5 months and 36 tools for 4 months. If 3 machines are equivalent to 6 equipment, and 2 equipment equal 3 tools. What portion of rent does M pay?

(a) 10/17

(b) 9/17

(c) 15/17

(d) 8/17

**Ans.(d)**

**Q60.** X, Y, and Z share a property worth ₹50,000, what is Y's share?

(a) ₹10,000

(b) ₹12,500

(c) ₹15,000

(d) ₹17,500

**Ans.(c)**

**Q61.** A bookstore has 4 boxes of books and some boxes of pens. The cost of books is ₹50,000, what is the ratio of the number of books to the number of pens? The cost of pens is ₹20,000. What is the ratio of the number of books to the number of pens?

(a) 4:7

(b) 1:3

(c) 2:3

(d) 3:2

**Ans.(a)**

**Q62.** Table: Test Scores (out of 100)

| Student   | Test 1 | Test 2 | Test 3 |
|-----------|--------|--------|--------|
| Student X | 78     | 85     | 82     |
| Student Y | 82     | 78     | 85     |

Which student has a higher average score?

(a) Student X

(b) Student Y

(c) Both are equal

(d) Cannot be determined

**Ans.(b)**

**Q63.** A pipe is divided in the ratio  $3/7 : 2/5 : 3/4$ . Total length = 8 m. Find the largest piece.

(a) 3.2 m

(b) 3.8 m

(c) 4.0 m

(d) 4.4 m

**Ans.(b)**

**Q64.** If P is 30% more than Q, and R is 25% more than P, then what is Q : R?

- (a) 4 : 5
- (b) 8 : 13
- (c) 5 : 4
- (d) 33 : 20

**Ans.(b)**

**Q65.** An item is marked at ₹850. A dealer allows 20% discount and still makes 12% profit. What is the cost price(Approximate)?

- (a) ₹580
- (b) ₹610
- (c) ₹607
- (d) ₹604

**Ans.(c)**

**Q66.** A pump

- (a) 3.5 L
- (b) 3.75 L
- (c) 4.0 L
- (d) 4.25 L

**Ans.(b)**

**Q67.** A container is filled with water. Its full capacity is 100 L. How much water is left when it is empty?

- (a) 25%
- (b) 40%
- (c) 50%
- (d) 60%

**Ans.(c)**

**Q68.** A manufacturer sells goods to a wholesaler at a 20% discount on marked price and a 10% surcharge. The wholesaler then sells the goods at ₹3,000 more than his cost price making a profit of ₹500. What is the marked price?

- (a) ₹15,000
- (b) ₹17,500
- (c) ₹19,200
- (d) ₹20,480

**Ans.(a)**

**Q69.** Three types of grain costing ₹50/kg, ₹70/kg, and unknown price are mixed in ratio 2:3:2. If sold at ₹64/kg with 20% profit, what is the price of the third variety?

- (a) ₹31.6/kg
- (b) ₹32.8/kg
- (c) ₹24.2/kg
- (d) ₹36/kg

**Ans.(a)**

**Q70.** Three concentric circles have diameters in arithmetic progression. Smallest circumference is  $8\pi$  cm, largest is  $18\pi$  cm. What is the middle circumference?

- (a)  $11\pi$  cm

- (b)  $12\pi$  cm
- (c)  $13\pi$  cm
- (d)  $14\pi$  cm

**Ans.(c)**

**Q71.** A sphere and a cone have the same volume and base radius. Find the ratio of height of cone to its radius.

- (a) 2:1
- (b) 3:1
- (c) 4:1
- (d) 8:1

**Ans.(c)**

**Q72.** A person invests ₹10,000 in a bank at 12% per annum simple interest. After 1 year, total interest earned is

- (a) ₹8,000
- (b) ₹10,000
- (c) ₹12,000
- (d) ₹16,000

**Ans.(d)**

**Q73.** A hexagon with side 8 cm is inscribed in a circle. The area of the circle is

- (a)  $1920\sqrt{3}$  cm<sup>2</sup>
- (b)  $1728\sqrt{2}$  cm<sup>2</sup>
- (c)  $1152\sqrt{3}$  cm<sup>2</sup>
- (d)  $2304\sqrt{3}$  cm<sup>2</sup>

**Ans.(c)**

**Q74.** A solid cylinder of radius 4 cm and height 10 cm is melted and recast into a cone of the same radius. The height of the cone is

- (a) 25.25%
- (b) 36.60%
- (c) 42.75%
- (d) 31.25%

**Ans.(d)**

**Q75.** A sector of a circle with radius 10 cm and central angle  $4\pi/5$  radians. What is the ratio of their areas?

- (a) 1:1
- (b) 4:5
- (c) 5:6
- (d) 7:8

**Ans.(a)**

**Q76.** Choose the most suitable option to replace the highlighted part of the sentence:

They reverted back to their original plan after the discussion.

- (a) returned back to their plan
- (b) reverted to original plan
- (c) reverted to their original plan

(d) went back to original plan

**Ans.(c)**

**Q77.** Select the most appropriate antonym of the given word: DISCORD

- (a) Uproar
- (b) Concord
- (c) Racket
- (d) Clatter

**Ans.(b)**

**Q78.** Select the most appropriate antonym of the given word: RUSE

- (a) Trickery
- (b) Candor
- (c) Deceit
- (d) Fraud

**Ans.(b)**

**Q79.** Select the

- (a) Damaging
- (b) Beneficial
- (c) Soothing
- (d) Supportive

**Ans.(a)**

**Q80.** Choose the correct option to complete the highlighted part of the sentence.

The man was

- (a) charged with
- (b) charged by
- (c) charged of
- (d) charged on

**Ans.(a)**

**Q81.** Convert

The report will

- (a) The analyst has submitted the report before the deadline.
- (b) The analyst will have submitted the report before the deadline.
- (c) The analyst has submitted the report before the deadline.
- (d) The analyst will have submitted the report before the deadline.

**Ans.(d)**

**Q82.** Select the correct option:

Each of the reports \_\_\_\_\_ been verified before submission.

- (a) has
- (b) have
- (c) is
- (d) has been being

**Ans.(a)**

**Q83.** What was one major unintended drawback linked to the CoWIN registration system?

Read the passage and answer the following questions.

India's COVID-19 vaccination programme—vast in ambition and reach—had to navigate a web of logistical hurdles, social resistance, and policy-level pressures. With a population exceeding a billion, the country had to deliver doses amid shifting supplies, uneven healthcare infrastructure, and varying levels of public confidence. Early distribution patterns were notably uneven: metropolitan regions received a larger share of vaccines compared to rural and remote areas. This gap was driven by centralized decision-making as well as practical constraints like weak cold-chain networks outside cities. In many far-flung locations, unreliable electricity, limited storage, and difficult transport routes made safe delivery challenging. Alongside this, vaccine doubt grew as false claims circulated online, amplifying fears about side effects or alleged motives—particularly through local-language channels. CoWIN, the digital system for registration, was a major step forward, but it also unintentionally left out many who lacked smartphones, internet access, or the skills to use such platforms, widening the digital divide. Over time, the approach was adjusted through greater state-level coordination, the use of mobile vaccination teams to reach underserved populations. Meanwhile, domestic manufacturing—especially Covishield and Covaxin—reduced reliance on external supply lines and supported “Vaccine Maitri” diplomacy. In the end, the campaign revealed India’s ability to mobilize at scale while underlining the importance of trust-building, infrastructure strength, and inclusive planning in a digitally unequal society.

- (a) It worsened vaccine distribution in rural areas
- (b) It caused delays in vaccine delivery
- (c) It left out people without smartphones or internet access
- (d) It resulted in vaccine shortages in metropolitan areas

**Ans.(c)**

**Q84.** According to the passage, what was a major challenge in vaccine distribution?

Read the passage and answer the following questions.

India's COVID-19 vaccination programme—vast in ambition and reach—had to navigate a web of logistical hurdles, social resistance, and policy-level pressures. With a population exceeding a billion, the country had to deliver doses amid shifting supplies, uneven healthcare infrastructure, and varying levels of public confidence. Early distribution patterns were notably uneven: metropolitan regions received a larger share of vaccines compared to rural and remote areas. This gap was driven by centralized decision-making as well as practical constraints like weak cold-chain networks outside cities. In many far-flung locations, unreliable electricity, limited storage, and difficult transport routes made safe delivery challenging. Alongside this, vaccine doubt grew as false claims circulated online, amplifying fears about side effects or alleged motives—particularly through local-language channels. CoWIN, the digital system for registration, was a major step forward, but it also unintentionally left out many who lacked smartphones, internet access, or the skills to use such platforms, widening the digital divide. Over time, the approach was adjusted through greater state-level coordination, the use of mobile vaccination teams to reach underserved populations. Meanwhile, domestic manufacturing—especially Covishield and Covaxin—reduced reliance on external supply lines and supported “Vaccine Maitri” diplomacy. In the end, the campaign revealed India’s ability to mobilize at scale while underlining the importance of trust-building, infrastructure strength, and inclusive planning in a digitally unequal society.

- (a) Urban facilities produced more vaccines than rural centres
- (b) Overseas supply disruptions alone created urban preference
- (c) Rural communities rejected vaccination in large numbers
- (d) Centralized control and weak rural logistics tilted allocation toward cities

**Ans.(d)**

**Q85.** Which step mentioned in the passage helped address vaccine rumours and hesitancy?

Read the passage and answer the following questions.

India's COVID-19 vaccination programme—vast in ambition and reach—had to navigate a web of logistical hurdles, social resistance, and policy-level pressures. With a population exceeding a billion, the country had to deliver doses amid shifting supplies, uneven healthcare infrastructure, and varying levels of public confidence. Early distribution patterns were notably uneven: metropolitan regions received a larger share of vaccines compared to rural and remote areas. This gap was driven by centralized decision-making as well as practical constraints like weak cold-chain networks outside cities. In many far-flung locations, unreliable electricity, limited storage, and difficult transport routes made safe delivery challenging. Alongside this, vaccine doubt grew as false claims circulated online, amplifying fears about side effects or alleged motives—particularly through local-language channels. CoWIN, the digital system for registration, was a major step forward, but it also unintentionally left out many who lacked smartphones, internet access, or the skills to use such platforms, widening the digital divide. Over time, the approach was adjusted through greater state-level involvement, community outreach via trusted local and religious figures, and the use of mobile vaccination teams to reach underserved populations. Meanwhile, domestic manufacturing—especially Covishield and Covaxin—reduced reliance on imports. In the end, the campaign revealed India's ability to mobilize at scale while underlining the importance of trust-building, infrastructure strength, and inclusive planning in a digitally unequal society.

- (a) Enforcing a central message
- (b) Relying on digital platforms
- (c) Depending on state-level involvement
- (d) Limiting access to urban areas

**Ans.(b)**

**Q86.** Which of the following best describes the writer's central message? Read the passage and answer the following questions.

India's COVID-19 vaccination programme—vast in ambition and reach—had to navigate a web of logistical hurdles, social resistance, and policy-level pressures. With a population exceeding a billion, the country had to deliver doses amid shifting supplies, uneven healthcare infrastructure, and varying levels of public confidence. Early distribution patterns were notably uneven: metropolitan regions received a larger share of vaccines compared to rural and remote areas. This gap was driven by centralized decision-making as well as practical constraints like weak cold-chain networks outside cities. In many far-flung locations, unreliable electricity, limited storage, and difficult transport routes made safe delivery challenging. Alongside this, vaccine doubt grew as false claims circulated online, amplifying fears about side effects or alleged motives—particularly through local-language channels. CoWIN, the digital system for registration, was a major step forward, but it also unintentionally left out many who lacked smartphones, internet access, or the skills to use such platforms, widening the digital divide. Over time, the approach was adjusted through greater state-level involvement, community outreach via trusted local and religious figures, and the use of mobile vaccination teams to reach underserved populations. Meanwhile, domestic manufacturing—especially Covishield and Covaxin—reduced reliance on imports. In the end, the campaign revealed India's ability to mobilize at scale while underlining the importance of trust-building, infrastructure strength, and inclusive planning in a digitally unequal society.

- (a) India's pharmaceutical exports gained global dominance
- (b) Vaccine side effects were the biggest threat to public health
- (c) Crisis management alone defined India's vaccination plan
- (d) Public health delivery was shaped by digital inequality and inclusion gaps

**Ans.(d)**

**Q87.** . What best describes the writer's attitude toward India's vaccination drive?

Read the passage and answer the following questions.

India's COVID-19 vaccination programme—vast in ambition and reach—had to navigate a web of logistical hurdles, social resistance, and policy-level pressures. With a population exceeding a billion, the country had to deliver doses

amid shifting supplies, uneven healthcare infrastructure, and varying levels of public confidence. Early distribution patterns were notably uneven: metropolitan regions received a larger share of vaccines compared to rural and remote areas. This gap was driven by centralized decision-making as well as practical constraints like weak cold-chain networks outside cities. In many far-flung locations, unreliable electricity, limited storage, and difficult transport routes made safe delivery challenging. Alongside this, vaccine doubt grew as false claims circulated online, amplifying fears about side effects or alleged motives—particularly through local-language channels. CoWIN, the digital system for registration, was a major step forward, but it also unintentionally left out many who lacked smartphones, internet access, or the skills to use such platforms, widening the digital divide. Over time, the approach was adjusted through greater state-level involvement, community outreach via trusted local and religious figures, and the use of mobile vaccination teams to reach underserved populations. Meanwhile, domestic manufacturing—especially Covishield and Covaxin—reduced reliance on external supply lines and supported “Vaccine Maitri” diplomacy. In the end, the campaign revealed India’s ability to mobilize at scale while underlining the importance of trust-building, infrastructure strength, and
