

SSC CGL T-I Similar Paper (Held on 21 Sep 2025 S3) - English

Q1. Statement:

$$A \geq B > C = D \leq E$$

Conclusions:

I. $A > C$

II. $B \leq E$

(a) Both I and II

(b) Neither I nor II

(c) Only I

(d) Only II

Ans.(c)

Q2. Find the V

40320, 5040,

(a) 5040

(b) 120

(c) 20

(d) 6

Ans.(c)

Q3. Choose the

(a) Rose

(b) Sunflower

(c) Apple

(d) Tulip

Ans.(c)

Q4. Choose the one that is the same as the one given below.

Flat No. 27, Green Park, Rohini Sector 5, Delhi - 110085

(a) Flat No. 72, Green Park, Rohini Sector 5, Delhi - 110085

(b) Flat No. 27, Green Park, Rohini Sector 5, Delhi - 110085

(c) Flat No. 27, Green Park, Rohini Sector 5, Delhi - 110085

(d) Flat No. 27, Green Park, Rohini Sector 5, Delhi - 110085

Ans.(d)

Q5. In the sequence A, C, F, J, O, ?, which letter is the next term?

(a) T

(b) U

(c) V

(d) W

Ans.(b)

Q6. Select the letter-cluster that replaces the question mark:

BCF, CEH, DGJ, EIL, ?

(a) FKN

(b) FJM

Ans.(a)

Q7. Statement:

The school has introduced online classes for all students.

Inferences:

- I. The school wants flexible learning.
II. The school building is permanently closed.

- (a) Only I follows
(b) Only II follows
(c) Both follow
(d) Neither follows

Ans.(a)

Q8. Select the

18 A 6 B 3 = 2

- (a) $\div$, +
(b) $\times$, -
(c) -, $\times$
(d) +, $\div$

Ans.(d)

Q9. If "PLANE"

- (a) RNCPE
(b) RNCQD
(c) SODPE
(d) RNC PG

Ans.(d)

Q10. If $8 \times 9 = 82$, $7 \times 6 = 42$, then $11 \times 8 =$

- (a) 88
(b) 96
(c) 99
(d) 84

Ans.(a)

Q11. Identify the roll number that doesn't follow the rule:

Last 2 digits = First 2 digits + 50

- (a) 20Z70
(b) 35Z85
(c) 40Z90
(d) 45Z80

Ans.(d)

Q12. Identify the odd crop.

Wheat, Rice, Jute, Barley

- (a) Wheat

Ans.(c)

Ans.(a)

Q24. Complete the series:

1, 8, 27, 64, ?

(a) 100

(b) 125

(c) 150

(d) 216

Ans.(b)

Q25. If 'A @ B' means 'A is the sister of B' and 'A # B' means 'A is the father of B', then how is P related to R in P @ Q # R?

(a) Aunt

(b) Sister

(c) Mother

(d) Daughter

Ans.(a)

Q26. The term _____ Central Public Enterprises.

(a) Companies Act, 1956 Nationalization

(b) Companies Act, 1956 Nationalization Autonomy

(c) Small-scale Industries

(d) Firms that are

Ans.(b)

Q27. Which of the following countries is not a member of the ASEAN?

(a) Myanmar

(b) Thailand

(c) Cambodia

(d) Vietnam

Ans.(b)

Q28. Which government scheme is aimed at providing health insurance to the elderly aged 60 and above?

(a) Pradhan Mantri Suraksha Bima Yojana (PMSBY)

(b) Pradhan Mantri Suraksha Bima Yojana (PMSBY)

(c) Pradhan Mantri Jan Dhan Yojana (PMJDY)

(d) Pradhan Mantri Mudra Yojana (PMMY)

Ans.(a)

Q29. Read the following statements marked as Assertion (A) and Reason (R). Choose the correct option.

Assertion (A): Scramjet engines are considered critical for the development of India's future hypersonic flight vehicles.

Reason (R): Scramjet engines operate by utilizing atmospheric oxygen as an oxidizer, making them efficient at supersonic speeds.

(a) Both A and R are true, and R is the correct explanation of A

(b) Both A and R are true, but R is not the correct explanation of A

(c) A is true, but R is false

(d) A is false, but R is true

Ans.(a)

Q30. Which Sultan of Delhi is credited with introducing the 'True Arch' and 'True Dome' into the architectural landscape of the Indian subcontinent?

- (a) Qutb-ud-din Aibak
- (b) Iltutmish
- (c) Ghiyasuddin Balban
- (d) Alauddin Khalji

Ans.(c)

Q31. Why was the 'Import Substitution' strategy adopted in India's industrial policy during 1950-1980?

- (a) To encourage exports
- (b) To protect domestic industries
- (c) To increase foreign exchange
- (d) To shift labour from agriculture to industry

Ans.(b)

Q32. Consider the following statements about Gabriel Garcia Marquez's 'One Hundred Years of Solitude':
1. The novel explores the rise and fall of the Buendia family in the fictional town of Macondo.
2. It presents a cyclical view of history, heavily influenced by魔幻现实主义 (Magical Realism).
Which of the statements is/are correct?

- (a) Only statement 1 is correct.
- (b) Only statement 2 is correct.
- (c) Both statements are correct.
- (d) Neither statement is correct.

Ans.(a)

Q33. Consider the following statements about the PM-PeAS (Pradhan Mantri Fertiliser Schemes):

- 1. It aims to increase farmers' access to affordable and quality fertilizers.
- 2. It focuses on providing the subsidy for chemical fertilizers.
- 3. It is a 100% centrally funded scheme with no state contribution.

- (a) Only 1 and 2 are correct.
- (b) Only 2 and 3 are correct.
- (c) Only 1 and 3 are correct.
- (d) All 1, 2 and 3 are correct.

Ans.(a)

Q34. In the context of Indian hydrogeology, which region is most characterized by 'Artesian wells' where groundwater rises to the surface under natural pressure?

- (a) Deccan Trap
- (b) Tarai region of the Himalayas
- (c) Malwa Plateau
- (d) Thar Desert

Ans.(b)

Q35. During a National Emergency (Article 352), the fundamental rights under Article 19 can be suspended by the:

- (a) President
- (b) Parliament
- (c) Supreme Court
- (d) Prime Minister

Ans.(a)

Q36. Neither the Pallava nor the Pandya dynasty was primarily responsible for the architectural development of:

- (a) Shore Temple at Mahabalipuram
- (b) Rock-cut Kailashnath Temple at Ellora
- (c) Five Rathas of Mamallapuram
- (d) Meenakshi Amman Temple complex foundations

Ans.(b)

Q37. In the context of Indian art, the term 'Ritualistic' refers to:

- (a) Ritualistic art
- (b) Philosophical art
- (c) Magic spells
- (d) Historical events

Ans.(a)

Q38. What was the achievement of the Indian athlete Neeraj Chopra at the Tokyo 2020 Olympics?

- (a) He broke the world record in the 100m sprint.
- (b) He became the first Indian athlete to win a gold medal in the 100m sprint.
- (c) He defeated the world champion in the 100m sprint by a margin of over 5 metres.
- (d) He was the first Indian athlete to compete in the 100m sprint.

Ans.(b)

Q39. Which of the following statements is/are correct regarding the legislative powers of Parliament in India?

1. Parliament has the power to legislate on any matter in the Concurrent List if the State Legislature has a resolution to that effect.
2. Parliament has the exclusive power to make any law with respect to any matter in the Concurrent List or State List.

- (a) Statement 1 only
- (b) Statement 2 only
- (c) Statement 1 and 2
- (d) Neither 1 nor 2 are Correct

Ans.(c)

Q40. Why is tungsten used almost exclusively for the filament of incandescent electric lamps?

- (a) It has a low melting point and high resistivity
- (b) It has a high melting point and high resistivity
- (c) It is a very good conductor of heat
- (d) It does not oxidize at high temperatures

Ans.(b)

Q41. Who among the following was the Chief Guest at India's Republic Day celebrations in 2024?

- (a) Emmanuel Macron
- (b) Abdel Fattah el-Sisi
- (c) Cyril Ramaphosa
- (d) Anthony Albanese

Ans.(a)

Q42. Read the below statements marked as Assertion (A) and Reason (R).

Assertion (A): The 'Ozone Hole' is most prominent over the Antarctic region during the spring months.

Reason (R): Polar Stratospheric Clouds (PSCs) provide the surface on which chemical reactions produce active chlorine that destroys ozone.

- (a) Both A and R are true, and R is the correct explanation of A.
- (b) Both A and R are true, but R is not the correct explanation of A.
- (c) A is true, but R is false.
- (d) A is false, but R is true.

Ans.(a)

Q43. Korba, a major coal field, is located in which state?

- (a) Jharkhand
- (b) Chhattisgarh
- (c) Maharashtra
- (d) West Bengal

Ans.(b)

Q44. Read the following Assertion (A) and Reason (R).

Assertion (A): The rate of inflation is directly proportional to the rate of increase in the money stock, even if the velocity of circulation is constant.

Reason (R): The rate of inflation is directly proportional to the rate of increase in the money stock, even if the velocity of circulation is constant.

- (a) Both A and R are true, and R is the correct explanation of A.
- (b) Both A and R are true, but R is not the correct explanation of A.
- (c) A is true, but R is false.
- (d) A is false, but R is true.

Ans.(a)

Q45. The Government of India has created five new Union Territories. Which of the following is not one of them?

- (a) Princely States
- (b) Chief Commissioner's Provinces
- (c) Union Territories
- (d) Overseas Territories

Ans.(a)

Q46. A 'Double Dribble' violation in basketball occurs when a player:

- (a) Dribbles the ball with both hands simultaneously
- (b) Takes three steps without dribbling
- (c) Dribbles the ball above shoulder height
- (d) Fouls an opponent during a layup

Ans.(a)

Q47. The traditional martial dance 'Thoda' is primarily associated with which community?

- (a) Rajputs
- (b) Gujjars
- (c) Ahirs
- (d) Marathas

Ans.(a)

Q48. The ceremonial procession of Lord Dharnath in Dhar district of Madhya Pradesh is locally referred to as a:

- (a) Jhanki
- (b) Chhabina
- (c) Rath
- (d) Sawari

Ans.(b)

Q49. Which of the following are the traditional sports of Rajasthan? 4-25?

- 1. The Ranji Trophy
- 2. The Duleep Trophy

- (a) Only 1
- (b) Only 2
- (c) Both 1 and 2
- (d) Neither 1 nor 2

Ans.(a)

Q50. What special provisions are made for the trial process of offenders under the Bharatiya Nyaya Sanhita?

- (a) Mandatory trial process
- (b) Allowing trial for offenders
- (c) Removal of trial process
- (d) Compulsory trial process

Ans.(b)

Q51. A pump empties a water reservoir in 10 hours. After 4 hours, two identical pipes are started. What is the total time taken to empty the reservoir?

- (a) 6 hours 40 minutes
- (b) 7 hours
- (c) 8 hours
- (d) 5 hours 20 minutes

Ans.(a)

Q52. The ratio of the radii of two cylinders is 2:3 and the ratio of their heights is 5:4. Find the ratio of their volumes.

- (a) 5:9
- (b) 4:9
- (c) 20:27
- (d) 10:27

Ans.(a)

Q53. If the average of a, b, and c is 60, and the average of a and b is 55, what is the value of c?

- (a) 75
- (b) 65

(c) 70

(d) 80

Ans.(c)

Q54. A cyclist covers a distance of 1500 m in 6 minutes. What is his speed in km per hour?

(a) 12 km/h

(b) 15 km/h

(c) 18 km/h

(d) 20 km/h

Ans.(b)

Q55. A boat travels 24 km upstream and 28 km downstream in 9 hours. It also travels 30 km upstream and 21 km downstream in 9 hours. What is the speed of the boat in still water?

(a) 6.50 km/h

(b) 7.45 km/h

(c) 10.45 km/h

(d) 12 km/h

Ans.(b)

Q56. A triangle has a base of 12 cm and a height of 10 cm. What is its area?

(a) 108 m²

(b) 72 m²

(c) 48 m²

(d) 54 m²

Ans.(d)

Q57. A grocer buys 10 kg of apples at Rs. 10/kg, making a 10% profit. In what ratio should he mix apples costing Rs. 10/kg and Rs. 15/kg to get a 10% profit?

(a) 1:1

(b) 2:1

(c) 1:2

(d) 3:2

Ans.(a)

Q58. A pyramid has a square base of side length 12 cm and a height of 10 cm. What is its volume?

(a) 2160 cm³

(b) 2448 cm³

(c) 1728 cm³

(d) 2880 cm³

Ans.(b)

Q59. X and Y invested Rs. 90,000 and Rs. 60,000 respectively for a project. X takes 15% of the total profit as a management fee. If the total profit is Rs. 1,50,000, what is Y's share?

(a) Rs. 76,500

(b) Rs. 60,000

(c) Rs. 51,000

(d) Rs. 54,000

Ans.(c)

Q60. If the simple interest on a sum of Rs. P at 8% per annum for 3 years is equal to the simple interest on Rs. Q at 6% per annum for 4 years, then what is the ratio of P to Q?

- (a) 1:2
- (b) 3:4
- (c) 4:3
- (d) 1:1

Ans.(d)

Q61. What will come in place of ? to satisfy the equation : $(\sqrt{7} - 1)^2 = ?$

– 2 $\sqrt{7}$

- (a) 8
- (b) 7
- (c) 6
- (d) 5

Ans.(a)

Q62. Find the

- (a) 12
- (b) 4
- (c) 3
- (d) 7

Ans.(c)

Q63. A manufacturer sells a product to a wholesaler at a profit of 10%. The wholesaler sells it to a retailer at a profit of 20%. The retailer sells it to a customer at a profit of 10%. Find the original cost for the manufacturer.

- (a) Rs. 1,000
- (b) Rs. 1,100
- (c) Rs. 1,200
- (d) Rs. 1,050

Ans.(a)

Q64. In a right-angled triangle, the height of the prism?

- (a) 15 cm
- (b) 20 cm
- (c) 10 cm
- (d) 25 cm

Ans.(b)

Q65. A businessman invests Rs. 85,000 at a rate of 10% compound interest per annum, compounded annually. Find the interest for the 3rd year only.

- (a) Rs. 10,285
- (b) Rs. 9,350
- (c) Rs. 8,500
- (d) Rs. 11,250

Ans.(a)

Q66. Which of these is a number that is real but NOT rational?

- (a) $22/7$
- (b) 3.1415
- (c) $\sqrt{13}$
- (d) - 8

Ans.(c)

Q67. In a circle, two chords AB and CD intersect at point P inside the circle. If AP = 4 cm, PB = 6 cm, and CP = 3 cm, find the length of PD.

- (a) 10 cm
- (b) 6 cm
- (c) 4 cm
- (d) 8 cm

Ans.(d)

Q68. Three numbers are in the ratio 3:4:5. If the sum of the first two numbers is 28, what is the ratio of the first to the third?

- (a) 10:9
- (b) 9:10
- (c) 4:3
- (d) 5:6

Ans.(a)

Q69. A triangle has a base of 40 m and a height of 50 m. What is its area?

- (a) 2,500 m²
- (b) 2,000 m²
- (c) 2,500 m²
- (d) 1,500 m²

Ans.(c)

Q70. Find the value of $\frac{1}{2} + \frac{1}{4}$.

- (a) $3/4$
- (b) $1/2$
- (c) $1/4$
- (d) 1

Ans.(c)

Q71. A regular hexagon is inscribed inside a circle of radius 10 cm. Find the area of the hexagon.

- (a) 210.50 cm²
- (b) 314.16 cm²
- (c) 173.20 cm²
- (d) 259.81 cm²

Ans.(d)

Q72. If $x + 1/x = 5$, then find the value of $x^3 + 1/x^3$.

- (a) 110
- (b) 125
- (c) 140
- (d) 115

Ans.(a)

Q73. A value was mistakenly decreased by 10% instead of increased by 10%. By what percent is the final result less than the CORRECT value?

- (a) 20%
- (b) 18.18%
- (c) 15.5%
- (d) 22.22%

Ans.(b)

Q74. If $\cos A = \frac{4}{5}$

- (a) $\frac{13}{5}$
- (b) $\frac{17}{5}$
- (c) $\frac{12}{5}$
- (d) 5

Ans.(d)

Q75. Find the value of $\frac{1}{2} + \frac{1}{3} + \frac{1}{4} + \frac{1}{5} + \frac{1}{6}$.

- (a) 5
- (b) 1
- (c) 2
- (d) 3

Ans.(d)

Q76. Choose the correct meaning of the word 'to throw one's hat into the ring'.

- (a) To withdraw from a competition or undertaking
- (b) To make a statement or declaration
- (c) To express one's opinion or views
- (d) Announce one's intention to compete

Ans.(d)

Q77. Rearrange the following sentences in correct order to make a logical passage.

1. This divide risks entrenching existing socioeconomic inequalities further.
2. Digital literacy has become an indispensable competency in the modern knowledge economy.
3. Bridging this gap requires coordinated investment in education and accessible infrastructure.
4. Yet a significant proportion of the global population remains without adequate access to digital tools.

- (a) 2-1-4-3
- (b) 1-3-2-4
- (c) 2-4-1-3
- (d) 4-2-1-3

Ans.(c)

Q78. In the sentence:

"The history of cartography is enriched by individuals whose intellectual daring surpassed the mere mapping of terrain..."

What is the grammatical role of the clause

"whose intellectual daring surpassed the mere mapping of terrain"

Read the passage and answer the questions:

The history of cartography is enriched by individuals whose intellectual daring surpassed the mere mapping of terrain, embodying a philosophical compulsion to render the unknown knowable. Each cartographer — whether charting the coastlines of the Mediterranean, the interior of sub-Saharan Africa, or the archipelagos of the Pacific — constructed not merely a geographic record but a testament to the symbiosis of imagination and empirical inquiry.

"Claudius Ptolemy" and his monumental second-century Geographia codified the ancient world's spatial understanding, yet figures such as "Ibn Battuta" and later "Gerardus Mercator" reconstituted those foundations entirely. Mercator's epochal 1569 projection, though cartographically distorting the relative scale of landmasses,

enabled navigators to plot straight-line courses across the globe with unprecedented precision — portraying geography not merely as a record of place but as an instrument of power. Similarly, "Mae Jemison", the first African-American woman in space, extended cartographic ambition beyond the terrestrial, charting new frontiers in the language of orbital science.

The discipline of mapmaking transformed dramatically through the latter decades of the twentieth century and into the twenty-first. Technologies such as Geographic Information Systems and satellite remote sensing enabled layered, dynamic representations of the world, like "Deniro" to objectivity, arguing that empirical assumptions of spatial knowledge systems — long a domain of male authority — were legitimate and understood. Thus, the story of cartography became a chronicle of technology between the human ambition to represent and the desire to complete capture — each a selective and a selective

- (a) Adverbial clause
- (b) Adjective clause
- (c) Noun clause
- (d) Participial clause

Ans.(b)

Q79. What is

"Mercator's epochal 1569 projection, though cartographically distorting the relative scale of landmasses,"

Read the passage

The history of cartography is enriched by individuals whose intellectual daring surpassed the mere mapping of terrain,

embodying a philosophical compulsion to render the unknown knowable. Each cartographer — whether charting the coastlines of the Mediterranean, the interior of sub-Saharan Africa, or the archipelagos of the Pacific — constructed not merely a geographic record but a testament to the symbiosis of imagination and empirical inquiry.

"Claudius Ptolemy" and his monumental second-century Geographia codified the ancient world's spatial understanding, yet figures such as "Ibn Battuta" and later "Gerardus Mercator" reconstituted those foundations entirely. Mercator's epochal 1569 projection, though cartographically distorting the relative scale of landmasses, enabled navigators to plot straight-line courses across the globe with unprecedented precision — portraying geography not merely as a record of place but as an instrument of power. Similarly, "Mae Jemison", the first African-American woman in space, extended cartographic ambition beyond the terrestrial, charting new frontiers in the language of orbital science.

The discipline of mapmaking transformed dramatically through the latter decades of the twentieth century and into the twenty-first. Technologies such as Geographic Information Systems and satellite remote sensing enabled layered,

dynamic representations of the Earth, while scholars like "Denis Wood" challenged cartography's claim to objectivity, arguing that every map encodes the ideological assumptions of its maker. Meanwhile, indigenous spatial knowledge systems — long subordinated to Western cartographic conventions — increasingly reclaim their epistemic authority as legitimate and irreplaceable frameworks for understanding place.

Thus, the story of cartography resists reduction to a chronicle of technical achievement. It is a dialectic between the human ambition to possess the world through representation and the world's irreducible resistance to complete capture — each map simultaneously a revelation and an act of selective concealment.

- (a) Negligible and easily overlooked
- (b) Technically flawed and unreliable
- (c) Highly significant and historic
- (d) Widely contested and discredited

Ans.(c)

Q80. What does the passage suggest about the history of cartography? Read the passage and answer the questions: The history of cartography is enriched by individuals whose intellectual daring surpassed the mere mapping of terrain, embodying a philosophical compulsion to render the unknown knowable. Each cartographer — whether charting the coastlines of the world or the intricate details of a local region — has contributed to a collective knowledge of the world, not merely a geographical record but a testament to human curiosity and the quest for understanding. The history of cartography is a story of discovery and exploration, of the human desire to know the world and to share that knowledge with others. It is a story of the human ambition to possess the world through representation and the world's irreducible resistance to complete capture — each map simultaneously a revelation and an act of selective concealment. The discipline of cartography has evolved significantly over the centuries, from the early days of simple maps to the sophisticated, layered, dynamic representations of the Earth we have today. The history of cartography is a story of discovery and exploration, of the human desire to know the world and to share that knowledge with others. It is a story of the human ambition to possess the world through representation and the world's irreducible resistance to complete capture — each map simultaneously a revelation and an act of selective concealment.

- (a) A definitive resolution of opposing viewpoints
- (b) A mathematical formula used in calculation
- (c) A prolonged negotiation between commercial parties
- (d) A dynamic tension or interplay between opposing forces

Ans.(d)

Q81. Which of the following most accurately captures the central argument of the passage?

Read the passage and answer the questions:

The history of cartography is enriched by individuals whose intellectual daring surpassed the mere mapping of terrain, embodying a philosophical compulsion to render the unknown knowable. Each cartographer — whether charting the

"Claudius Ptolemy" and his monumental second-century Geographia codified the ancient world's spatial understanding, yet figures such as "Ibn Battuta" and later "Gerardus Mercator" reconstituted those foundations entirely. Mercator's epochal 1569 projection, though cartographically distorting the relative scale of landmasses, enabled navigators to plot straight-line courses across the globe with unprecedented precision — portraying geography not merely as a record of place but as an instrument of power. Similarly, "Mae Jemison", the first African-American woman in space, extended cartographic ambition beyond the terrestrial, charting new frontiers in the language of orbital science.

The discipline of mapmaking transformed dramatically through the latter decades of the twentieth century and into the twenty-first. Technologies such as Geographic Information Systems and satellite remote sensing enabled layered, dynamic representations of the Earth, while scholars like "Denis Wood" challenged cartography's claim to objectivity, arguing that even the most "objective" maps are imbued with cultural knowledge and power. The rise of digital mapping systems — long a staple of military and intelligence operations — challenged traditional cartographic authority as legitimate and authoritative. The digital age also brought new challenges to the field, as the ease of creating and disseminating maps blurred the line between legitimate and illegitimate cartography. Thus, the story of cartography in the twenty-first century is one of both continuity and change, as the field grapples with the human ambition to map the world and the technological tools to complete the task.

- (a) Cartography with an interest in the past
(b) Modern cartography with a focus on digital mapping
(c) Cartography with a focus on geographical innovation
(d) Indigenous cartography with a focus on scientific inquiry.

Ans.(c)

without signif

Added 24/7

The discipline of mapmaking transformed dramatically through the latter decades of the twentieth century and into the twenty-first. Technologies such as Geographic Information Systems and satellite remote sensing enabled layered, dynamic representations of the Earth, while scholars like "Denis Wood" challenged cartography's claim to objectivity, arguing that every map encodes the ideological assumptions of its maker. Meanwhile, indigenous spatial knowledge systems — long subordinated to Western cartographic conventions — increasingly reclaim their epistemic authority as legitimate and irreplaceable frameworks for understanding place.

Thus, the story of cartography resists reduction to a chronicle of technical achievement. It is a dialectic between the human ambition to possess the world through representation and the world's irreducible resistance to complete capture — each map simultaneously a revelation and an act of selective concealment.

- (a) Manageable
- (b) Temporary
